

Finding the perfect resort builder

The **Borneo Benar** advantage

For you, a project owner or project development company, finding the perfect builder for a luxurious beach resort is key to success.

What are the critical success factors?

1. First-class references

Borneo Benar Sdn. Bhd. has delivered 20+ high-end projects in the Maldives, Seychelles, and Sri Lanka, working with world-class brands and architects like Jean-Michel Gathy.

2. Large-scale capacity

One of Borneo Benar's lighthouse projects, Waldorf Astoria Ithaafushi, consists of 120 villas with up to 325 m² living space.

3. Reliable timber sourcing

Headquartered in Kota Kinabalu on the world's biggest tropical island, Borneo Benar's business is where the raw material grows.

4. Optimized design-to-build process

The design ideas architects come up with are being enhanced with real-world experience and converted into a production model.

5. Logistics & assembly partners

Borneo Benar has most of its resorts built on remote islands, a challenge for logistics operations and the assembly team.
